Who do you see as an authentic speaker?
List as many as you can come up with!

SPEAKERS:

Now that you have identified authentic speakers,
what makes them stand out to you as "authentic"?

AUTHENTIC TRAITS:

What adjectives would you use to describe **your personal presentation style**?

What **surprised** you most about what you learned
from the feedback activity?

What **existing self-perceptions** about your
presentation style were reinforced after the
feedback activity?

What **risks do you face in presenting** as your most
authentic self? What, if any, audiences do you feel
the need to modify or temper yourself with?
